Dear Sir,

it was a wonderful opportunity to celebrate the joining of Croatia to the European Union with a cultural event.

You give us a wonderful occasion to discover the naive painting, expression of beauty and sensibility of the croatian soul.

We thank you for this generous and prestigious opportunity to have this exhibition of naif Art in Marseille.

We are very proud of this famous « egg from the heart » special painted for Marseille, which will symbolize the hope to build a common new future for Europe.

With my best regards and the hope to meet you perhaps again,

*Monique Beltrame*
